Dear Herbert:

I have been working with Anaya Lease since 1991 and must commend your company for its safety record and work habits. Anaya Lease has always done their best in providing safe working conditions for their employees and the companies they work for. We have reviewed your safety awareness through the safety meetings that you hold for your employees and have noted the fact that your employees and supervisors have attended numerous PG&E safety meetings. I have never witnessed any unsafe acts performed by Anaya Lease employees and appreciate your dedication to safety.

Sincerely,
